

## Huth – Pack 20

PFFE – impregnated

Description: Braided from high quality, smooth synthetic endless fibers of aramid with PTFE impregnation and additional lubricant. Extremely heavy wearing.

Recommended applications: A universal packing which can be used for pumps and valves in all branches of industry, such as the chemical and petrochemical industries, sewage treatment, refrigeration technique, etc. Very suitable for abrasive media. An asbestos-free alternative for hot water applications: Water, sewage, hot water, oils, greases, gases, weak acids and weak alkaline solutions, abrasive media, etc.

Not suitable for oxygen, strong alkaline solutions and oxidizing media.

Technical dates:

pH	Temperature	P (kg/cm <sup>2</sup> )	V (m/sec)	friction
	-100°C	50	25	5m/s = 0,075
2-13	to	150	10	1m/s = 0,037
	280°C	300	2	*
